

Datasheet for ABIN6880775

Recombinant anti-RELB antibody (Biotin)

[Go to Product page](#)

Overview

Quantity:	100 µL
Target:	RELB
Reactivity:	Human
Host:	Rabbit
Antibody Type:	Recombinant Antibody
Clonality:	Monoclonal
Conjugate:	This RELB antibody is conjugated to Biotin
Application:	Please inquire

Product Details

Cross-Reactivity:	Human
Characteristics:	RelB Conjugated Antibody

Target Details

Target:	RELB
Alternative Name:	RelB (RELB Products)
Pathways:	NF-kappaB Signaling , RTK Signaling

Application Details

Application Notes:	Biotin conjugated: Working with enzyme-conjugated streptavidin. ELISA: 1: 200 - 1: 1,000;
--------------------	---

Application Details

Western Blot: 1: 200 - 1: 1,000; IHC/ICC: 1: 100 - 1: 500; Flow Cytometry: 1: 50 - 1: 250; IF: 1: 100 - 1: 500.

Restrictions: For Research Use only

Handling

Storage: 4 °C

Storage Comment: Store at 4°C for 6 months.
