Datasheet for ABIN6882665
anti-HSA antibody (Biotin)

Overview

Quantity:	100 µL
Target:	HSA
Reactivity:	Human
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This HSA antibody is conjugated to Biotin
Application:	Please inquire

Product Details

Cross-Reactivity:	Human
Characteristics:	Human Serum Albumin Conjugated Antibody

Target Details

Target:	HSA
Alternative Name:	Human Serum Albumin (HSA Products)

Application Details

Application Notes:	Biotin conjugated: Working with enzyme-conjugated streptavidin. ELISA: 1: 200 - 1: 1,000; Western Blot: 1: 200 - 1: 1,000; IHC/ICC: 1: 100 - 1: 500; Flow Cytometry: 1: 50 - 1: 250; IF: 1: 100 - 1: 500.
Restrictions:	For Research Use only

Handling

Storage: 4 °C

Storage Comment: Store at 4°C for 6 months.
