## anti-TNFRSF12A antibody (Alexa Fluor 555)

[Go to Product page](#)

### Overview

|              |                                                          |
|--------------|----------------------------------------------------------|
| Quantity:    | 100 µL                                                   |
| Target:      | TNFRSF12A                                                |
| Reactivity:  | Human                                                    |
| Host:        | Rabbit                                                   |
| Clonality:   | Polyclonal                                               |
| Conjugate:   | This TNFRSF12A antibody is conjugated to Alexa Fluor 555 |
| Application: | Please inquire                                           |

### Product Details

|                   |                               |
|-------------------|-------------------------------|
| Cross-Reactivity: | Human                         |
| Characteristics:  | TNFRSF12A Conjugated Antibody |

### Target Details

|                   |                                                                     |
|-------------------|---------------------------------------------------------------------|
| Target:           | TNFRSF12A                                                           |
| Alternative Name: | TNFRSF12A ( <a href="#">TNFRSF12A Products</a> )                    |
| Pathways:         | <a href="#">Apoptosis</a> , <a href="#">Regulation of Cell Size</a> |

### Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF555 conjugated: most applications: 1: 50 - 1: 250 |
| Restrictions:      | For Research Use only                               |

Handling

---

|                  |                            |
|------------------|----------------------------|
| Storage:         | 4 °C                       |
| Storage Comment: | Store at 4°C for 6 months. |
