

Datasheet for ABIN6884108

**Recombinant anti-CDT1 antibody (Alexa Fluor 555)**[Go to Product page](#)

## Overview

|                |                                                     |
|----------------|-----------------------------------------------------|
| Quantity:      | 100 µL                                              |
| Target:        | CDT1                                                |
| Reactivity:    | Human                                               |
| Host:          | Rabbit                                              |
| Antibody Type: | Recombinant Antibody                                |
| Clonality:     | Monoclonal                                          |
| Conjugate:     | This CDT1 antibody is conjugated to Alexa Fluor 555 |
| Application:   | Please inquire                                      |

## Product Details

|                   |                          |
|-------------------|--------------------------|
| Cross-Reactivity: | Human                    |
| Characteristics:  | CDT1 Conjugated Antibody |

## Target Details

|                   |                                                                                                                                              |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | CDT1                                                                                                                                         |
| Alternative Name: | CDT1 ( <a href="#">CDT1 Products</a> )                                                                                                       |
| Pathways:         | <a href="#">MAPK Signaling</a> , <a href="#">Mitotic G1-G1/S Phases</a> , <a href="#">DNA Replication</a> , <a href="#">Synthesis of DNA</a> |

## Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF555 conjugated: most applications: 1: 50 - 1: 250 |
|--------------------|-----------------------------------------------------|
