## Recombinant anti-Huntingtin antibody (Alexa Fluor 555)

[Go to Product page](#)

### Overview

|                |                                                           |
|----------------|-----------------------------------------------------------|
| Quantity:      | 100 µL                                                    |
| Target:        | Huntingtin (HTT)                                          |
| Reactivity:    | Human, Rat, Mouse                                         |
| Host:          | Rabbit                                                    |
| Antibody Type: | Recombinant Antibody                                      |
| Clonality:     | Monoclonal                                                |
| Conjugate:     | This Huntingtin antibody is conjugated to Alexa Fluor 555 |
| Application:   | Please inquire                                            |

### Product Details

|                   |                                     |
|-------------------|-------------------------------------|
| Cross-Reactivity: | Human, Mouse (Murine), Rat (Rattus) |
| Characteristics:  | Huntingtin Conjugated Antibody      |

### Target Details

|                   |                                                                                                                                                                                                                                                            |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | Huntingtin (HTT)                                                                                                                                                                                                                                           |
| Alternative Name: | Huntingtin ( <a href="#">HTT Products</a> )                                                                                                                                                                                                                |

Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF555 conjugated: most applications: 1: 50 - 1: 250 |
| Restrictions:      | For Research Use only                               |

Handling

|                  |                            |
|------------------|----------------------------|
| Storage:         | 4 °C                       |
| Storage Comment: | Store at 4°C for 6 months. |
