## Overview

|              |                                                    |
|--------------|----------------------------------------------------|
| Quantity:    | 100 µL                                             |
| Target:      | OAT                                                |
| Reactivity:  | Human, Mouse, Rat                                  |
| Host:        | Rabbit                                             |
| Clonality:   | Polyclonal                                         |
| Conjugate:   | This OAT antibody is conjugated to Alexa Fluor 555 |
| Application: | Please inquire                                     |

## Product Details

|                   |                                     |
|-------------------|-------------------------------------|
| Cross-Reactivity: | Human, Mouse (Murine), Rat (Rattus) |
| Characteristics:  | OAT Conjugated Antibody             |

## Target Details

|                   |                                      |
|-------------------|--------------------------------------|
| Target:           | OAT                                  |
| Alternative Name: | OAT ( <a href="#">OAT Products</a> ) |

## Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF555 conjugated: most applications: 1: 50 - 1: 250 |
| Restrictions:      | For Research Use only                               |

Handling

---

|                  |                            |
|------------------|----------------------------|
| Storage:         | 4 °C                       |
| Storage Comment: | Store at 4°C for 6 months. |
