## Overview

|              |                                                         |
|--------------|---------------------------------------------------------|
| Quantity:    | 100 µL                                                  |
| Target:      | Formin 2 (FMN2)                                         |
| Reactivity:  | Human, Mouse                                            |
| Host:        | Rabbit                                                  |
| Clonality:   | Polyclonal                                              |
| Conjugate:   | This Formin 2 antibody is conjugated to Alexa Fluor 555 |
| Application: | Please inquire                                          |

## Product Details

|                   |                          |
|-------------------|--------------------------|
| Cross-Reactivity: | Human, Mouse (Murine)    |
| Characteristics:  | FMN2 Conjugated Antibody |

## Target Details

|                   |                                                             |
|-------------------|-------------------------------------------------------------|
| Target:           | Formin 2 (FMN2)                                             |
| Alternative Name: | FMN2 ( <a href="#">FMN2 Products</a> )                      |
| Pathways:         | <a href="#">Regulation of Actin Filament Polymerization</a> |

## Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF555 conjugated: most applications: 1: 50 - 1: 250 |
| Restrictions:      | For Research Use only                               |

Handling

---

|                  |                            |
|------------------|----------------------------|
| Storage:         | 4 °C                       |
| Storage Comment: | Store at 4°C for 6 months. |
