

Datasheet for ABIN6890653

anti-Crk antibody (pTyr221) (Alexa Fluor 555)

[Go to Product page](#)

Overview

Quantity:	100 µL
Target:	Crk (CRK)
Binding Specificity:	pTyr221
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This Crk antibody is conjugated to Alexa Fluor 555
Application:	Please inquire

Product Details

Cross-Reactivity:	Human
Characteristics:	Crk II (Phospho-Tyr221) Polyclonal Conjugated Antibody

Target Details

Target:	Crk (CRK)
Alternative Name:	Crk II (CRK Products)
Pathways:	Neurotrophin Signaling Pathway , CXCR4-mediated Signaling Events , Signaling of Hepatocyte Growth Factor Receptor

Application Details

Application Notes:	AF555 conjugated: most applications: 1: 50 - 1: 250
Restrictions:	For Research Use only

Handling

Storage:	4 °C
Storage Comment:	Store at 4°C for 6 months.
