

Datasheet for ABIN6892856

anti-Tiparp antibody (Alexa Fluor 555)[Go to Product page](#)

Overview

Quantity:	100 µL
Target:	Tiparp
Reactivity:	Human, Mouse
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This Tiparp antibody is conjugated to Alexa Fluor 555
Application:	Please inquire

Product Details

Cross-Reactivity:	Human, Mouse (Murine)
Characteristics:	TIPARP Conjugated Antibody

Target Details

Target:	Tiparp
Alternative Name:	TIPARP (Tiparp Products)
Pathways:	Platelet-derived growth Factor Receptor Signaling

Application Details

Application Notes:	AF555 conjugated: most applications: 1: 50 - 1: 250
Restrictions:	For Research Use only

Handling

Storage:	4 °C
Storage Comment:	Store at 4°C for 6 months.
