

Datasheet for ABIN6894565

**anti-EPH Receptor B1 antibody (Alexa Fluor 555)**[Go to Product page](#)

## Overview

|              |                                                                |
|--------------|----------------------------------------------------------------|
| Quantity:    | 100 µL                                                         |
| Target:      | EPH Receptor B1 (EPHB1)                                        |
| Reactivity:  | Human, Rat                                                     |
| Host:        | Rabbit                                                         |
| Clonality:   | Polyclonal                                                     |
| Conjugate:   | This EPH Receptor B1 antibody is conjugated to Alexa Fluor 555 |
| Application: | Please inquire                                                 |

## Product Details

|                   |                           |
|-------------------|---------------------------|
| Cross-Reactivity: | Human, Rat (Rattus)       |
| Characteristics:  | EPHB1 Conjugated Antibody |

## Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | EPH Receptor B1 (EPHB1)                  |
| Alternative Name: | EPHB1 ( <a href="#">EPHB1 Products</a> ) |
| Pathways:         | <a href="#">RTK Signaling</a>            |

## Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF555 conjugated: most applications: 1: 50 - 1: 250 |
| Restrictions:      | For Research Use only                               |

Handling

---

|                  |                            |
|------------------|----------------------------|
| Storage:         | 4 °C                       |
| Storage Comment: | Store at 4°C for 6 months. |
