

Datasheet for ABIN6894949

**anti-HMOX1 antibody (Alexa Fluor 555)**[Go to Product page](#)

## Overview

|              |                                                      |
|--------------|------------------------------------------------------|
| Quantity:    | 100 µL                                               |
| Target:      | HMOX1                                                |
| Reactivity:  | Human, Rat, Mouse                                    |
| Host:        | Rabbit                                               |
| Clonality:   | Polyclonal                                           |
| Conjugate:   | This HMOX1 antibody is conjugated to Alexa Fluor 555 |
| Application: | Please inquire                                       |

## Product Details

|                   |                                     |
|-------------------|-------------------------------------|
| Cross-Reactivity: | Human, Mouse (Murine), Rat (Rattus) |
| Characteristics:  | HMOX1 Conjugated Antibody           |

## Target Details

|                   |                                                                                                                                                                                                                                                                                                      |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | HMOX1                                                                                                                                                                                                                                                                                                |
| Alternative Name: | HMOX1 ( <a href="#">HMOX1 Products</a> )                                                                                                                                                                                                                                                             |
| Pathways:         | <a href="#">Transition Metal Ion Homeostasis</a> , <a href="#">Regulation of Leukocyte Mediated Immunity</a> , <a href="#">Positive Regulation of Immune Effector Process</a> , <a href="#">Production of Molecular Mediator of Immune Response</a> , <a href="#">SARS-CoV-2 Protein Interactome</a> |

## Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF555 conjugated: most applications: 1: 50 - 1: 250 |
|--------------------|-----------------------------------------------------|
