

Datasheet for ABIN6895242

anti-SEPSECS antibody (Alexa Fluor 555)[Go to Product page](#)

Overview

Quantity:	100 µL
Target:	SEPSECS
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This SEPSECS antibody is conjugated to Alexa Fluor 555
Application:	Please inquire

Product Details

Cross-Reactivity:	Human
Characteristics:	O-phosphoseryl-tRNA(Sec) selenium transferase Polyclonal Conjugated Antibody

Target Details

Target:	SEPSECS
Alternative Name:	O-phosphoseryl-tRNA(Sec) selenium transferase (SEPSECS Products)
Pathways:	SARS-CoV-2 Protein Interactome

Application Details

Application Notes:	AF555 conjugated: most applications: 1: 50 - 1: 250
Restrictions:	For Research Use only

Handling

Storage:	4 °C
Storage Comment:	Store at 4°C for 6 months.
