### Overview

|              |                                                                                   |
|--------------|-----------------------------------------------------------------------------------|
| Quantity:    | 100 µL                                                                            |
| Target:      | Activator of Basal Transcription 1 (Abt1)                                         |
| Reactivity:  | Human                                                                             |
| Host:        | Rabbit                                                                            |
| Clonality:   | Polyclonal                                                                        |
| Conjugate:   | This Activator of Basal Transcription 1 antibody is conjugated to Alexa Fluor 680 |
| Application: | Please inquire                                                                    |

### Product Details

|                   |                          |
|-------------------|--------------------------|
| Cross-Reactivity: | Human                    |
| Characteristics:  | ABT1 Conjugated Antibody |

### Target Details

|                   |                                           |
|-------------------|-------------------------------------------|
| Target:           | Activator of Basal Transcription 1 (Abt1) |
| Alternative Name: | ABT1 ( <a href="#">Abt1 Products</a> )    |

### Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF680 conjugated: most applications: 1: 50 - 1: 250 |
| Restrictions:      | For Research Use only                               |

Handling

---

|                  |                            |
|------------------|----------------------------|
| Storage:         | 4 °C                       |
| Storage Comment: | Store at 4°C for 6 months. |
