Datasheet for ABIN6900897

anti-HHV-1 Thymidine Kinase antibody (Alexa Fluor 680)

Overview

Quantity:	100 µL
Target:	HHV-1 Thymidine Kinase (HHV-1 TK)
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This HHV-1 Thymidine Kinase antibody is conjugated to Alexa Fluor 680
Application:	Please inquire

Product Details

Cross-Reactivity:	Human
Characteristics:	KITH_HHV1S Conjugated Antibody

Target Details

Target:	HHV-1 Thymidine Kinase (HHV-1 TK)
Alternative Name:	KITH_HHV1S (HHV-1 TK Products)

Application Details

Application Notes:	AF680 conjugated: most applications: 1: 50 - 1: 250
Restrictions:	For Research Use only

Handling

Storage: 4 °C

Storage Comment: Store at 4°C for 6 months.
