

Datasheet for ABIN6902950

**anti-Retinoic Acid Receptor beta antibody (Alexa Fluor 680)**[Go to Product page](#)

## Overview

|              |                                                                            |
|--------------|----------------------------------------------------------------------------|
| Quantity:    | 100 µL                                                                     |
| Target:      | Retinoic Acid Receptor beta (RARβ)                                         |
| Reactivity:  | Human, Mouse                                                               |
| Host:        | Rabbit                                                                     |
| Clonality:   | Polyclonal                                                                 |
| Conjugate:   | This Retinoic Acid Receptor beta antibody is conjugated to Alexa Fluor 680 |
| Application: | Please inquire                                                             |

## Product Details

|                   |                          |
|-------------------|--------------------------|
| Cross-Reactivity: | Human, Mouse (Murine)    |
| Characteristics:  | RARB Conjugated Antibody |

## Target Details

|                   |                                                                                                                                                                                |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | Retinoic Acid Receptor beta (RARβ)                                                                                                                                             |
| Alternative Name: | RARB ( <a href="#">RARβ Products</a> )                                                                                                                                         |
| Pathways:         | <a href="#">Nuclear Receptor Transcription Pathway</a> , <a href="#">Retinoic Acid Receptor Signaling Pathway</a> , <a href="#">Steroid Hormone Mediated Signaling Pathway</a> |

## Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF680 conjugated: most applications: 1: 50 - 1: 250 |
| Restrictions:      | For Research Use only                               |

Handling

---

|                  |                            |
|------------------|----------------------------|
| Storage:         | 4 °C                       |
| Storage Comment: | Store at 4°C for 6 months. |
