

Datasheet for ABIN6907936

Recombinant anti-NOXA antibody (Alexa Fluor 680)[Go to Product page](#)

Overview

Quantity:	100 µL
Target:	NOXA (PMAIP1)
Reactivity:	Human
Host:	Rabbit
Antibody Type:	Recombinant Antibody
Clonality:	Monoclonal
Conjugate:	This NOXA antibody is conjugated to Alexa Fluor 680
Application:	Please inquire

Product Details

Cross-Reactivity:	Human
Characteristics:	Noxa Conjugated Antibody

Target Details

Target:	NOXA (PMAIP1)
Alternative Name:	Noxa (PMAIP1 Products)
Pathways:	p53 Signaling , Positive Regulation of Endopeptidase Activity , Regulation of Carbohydrate Metabolic Process , Positive Regulation of Response to DNA Damage Stimulus

Application Details

Application Notes:	AF680 conjugated: most applications: 1: 50 - 1: 250
Restrictions:	For Research Use only

Handling

Storage:	4 °C
Storage Comment:	Store at 4°C for 6 months.
