## Overview

|              |                                                     |
|--------------|-----------------------------------------------------|
| Quantity:    | 100 µL                                              |
| Target:      | HMMR                                                |
| Reactivity:  | Human, Mouse, Rat                                   |
| Host:        | Rabbit                                              |
| Clonality:   | Polyclonal                                          |
| Conjugate:   | This HMMR antibody is conjugated to Alexa Fluor 680 |
| Application: | Please inquire                                      |

## Product Details

|                   |                                     |
|-------------------|-------------------------------------|
| Cross-Reactivity: | Human, Mouse (Murine), Rat (Rattus) |
| Characteristics:  | HMMR Conjugated Antibody            |

## Target Details

|                   |                                                     |
|-------------------|-----------------------------------------------------|
| Target:           | HMMR                                                |
| Alternative Name: | HMMR ( <a href="#">HMMR Products</a> )              |
| Pathways:         | <a href="#">Glycosaminoglycan Metabolic Process</a> |

## Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF680 conjugated: most applications: 1: 50 - 1: 250 |
| Restrictions:      | For Research Use only                               |

## Handling

---

|          |      |
|----------|------|
| Storage: | 4 °C |
|----------|------|

---

|                  |                            |
|------------------|----------------------------|
| Storage Comment: | Store at 4°C for 6 months. |
|------------------|----------------------------|
