## Recombinant anti-TCP1 alpha/CCTA antibody (Alexa Fluor 680)

[Go to Product page](#)

### Overview

|                |                                                                |
|----------------|----------------------------------------------------------------|
| Quantity:      | 100 µL                                                         |
| Target:        | TCP1 alpha/CCTA (TCP1)                                         |
| Reactivity:    | Human, Mouse, Rat                                              |
| Host:          | Rabbit                                                         |
| Antibody Type: | Recombinant Antibody                                           |
| Clonality:     | Monoclonal                                                     |
| Conjugate:     | This TCP1 alpha/CCTA antibody is conjugated to Alexa Fluor 680 |
| Application:   | Please inquire                                                 |

### Product Details

|                   |                                     |
|-------------------|-------------------------------------|
| Cross-Reactivity: | Human, Mouse (Murine), Rat (Rattus) |
| Characteristics:  | p63 Conjugated Antibody             |

### Target Details

|                   |                                       |
|-------------------|---------------------------------------|
| Target:           | TCP1 alpha/CCTA (TCP1)                |
| Alternative Name: | p63 ( <a href="#">TCP1 Products</a> ) |

### Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF680 conjugated: most applications: 1: 50 - 1: 250 |
| Restrictions:      | For Research Use only                               |

Handling

---

|                  |                            |
|------------------|----------------------------|
| Storage:         | 4 °C                       |
| Storage Comment: | Store at 4°C for 6 months. |
