Datasheet for ABIN6914791
anti-HSA antibody (Alexa Fluor 680)

Overview

Quantity:	100 µL
Target:	HSA
Reactivity:	Human
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This HSA antibody is conjugated to Alexa Fluor 680
Application:	Please inquire

Product Details

Cross-Reactivity:	Human
Characteristics:	Human Serum Albumin Conjugated Antibody

Target Details

Target:	HSA
Alternative Name:	Human Serum Albumin (HSA Products)

Application Details

Application Notes:	AF680 conjugated: most applications: 1: 50 - 1: 250
Restrictions:	For Research Use only

Handling

Storage: 4 °C

Storage Comment: Store at 4°C for 6 months.
