Datasheet for ABIN6940943 anti-Caldesmon antibody

3 Images

Control of the second s

Overview

| Quantity: | 100 µg |
|--------------|--|
| Target: | Caldesmon (CALD1) |
| Reactivity: | Human, Rat |
| Host: | Rabbit |
| Clonality: | Polyclonal |
| Conjugate: | This Caldesmon antibody is un-conjugated |
| Application: | Immunohistochemistry (IHC), Staining Methods (StM) |

Product Details

| Immunogen: | Recombinant human CALD1 protein fragment |
|--------------|---|
| lsotype: | lgG |
| Specificity: | Recognizes a protein of 150 kDa, which is identified as the high molecular weight variant of |
| | Caldesmon. Two closely related variants of human caldesmon have been identified which are |
| | different in their electrophoretic mobility and cellular distribution. The h-caldesmon variant |
| | (120'150 kDa) is predominantly expressed in smooth muscle whereas l-caldesmon (70'80 kDa) |
| | is found in non- muscle tissue and cells. Neither of the two variants has been detected in |
| | skeletal muscle. This antibody recognizes only the 150 kDa variant (h-caldesmon) in Western |
| | blots of human aortic media extracts and is unreactive with fibroblast extracts from cultivated |
| | human foreskin. Caldesmon is a developmentally regulated protein involved in smooth muscle |
| | and non-muscle contraction. |

Purification:

Purified by Protein A/G

Target Details

| Target: | Caldesmon (CALD1) |
|-------------------|---------------------------------------|
| Alternative Name: | CALD1 (CALD1 Products) |
| Molecular Weight: | 150kDa |
| Gene ID: | 800 |
| UniProt: | Q05682 |
| Pathways: | Myometrial Relaxation and Contraction |

Application Details

| Application Notes: | Positive Control: Uterus, Blood vessels in all tissues, smooth muscle or leiomyosarcoma. |
|--------------------|---|
| | Known Application: Immunohistochemistry (Formalin-fixed) (1-2 μ g/mL for 30 minutes at |
| | RT)(Staining of formalin-fixed tissues requires boiling tissue sections in 1 mM EDTA, pH 7.5-8.5, |
| | for 10-20 min followed by cooling at RT for 20 minutes)Optimal dilution for a specific |
| | application should be determined. |
| Restrictions: | For Research Use only |
| Handling | |
| Concentration: | 200 µg/mL |
| Buffer: | 10 mM PBS with 0.05 % BSA & 0.05 % azide. |
| Preservative: | Sodium azide |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which |
| | should be handled by trained staff only. |
| Storage: | 4 °C,-80 °C |
| Storage Comment: | Antibody with azide - store at 2 to 8°C. Antibody without azide - store at -20 to -80°C. Antibody |
| | is stable for 24 months. Non-hazardous. No MSDS required. |
| Expiry Date: | 24 months |
