

Datasheet for ABIN6952395 **anti-EHF antibody (C-Term)**

[Go to Product page](#)

Overview

Quantity:	50 µg
Target:	EHF
Binding Specificity:	C-Term
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Application:	ELISA, ChIP DNA-Sequencing (ChIP-seq), Chromatin Immunoprecipitation (ChIP)

Product Details

Immunogen:	synthetic peptide
Specificity:	Polyclonal antibody raised in rabbit against human EHF (ETS Homologous Factor), using two synthetic peptides containing a sequence from the central part and the C-terminus of the protein, respectively.
Purification:	Peptide affinity purified

Target Details

Target:	EHF
Alternative Name:	EHF (EHF Products)
Background:	EHF (UniProtKB/Swiss-Prot entry Q9NZC4) belongs to the ETS transcription factor family. This transcriptional activator shows epithelial-specific expression and plays a role in regulating epithelial cell differentiation and proliferation. EHF may also act as a transcriptional repressor

Target Details

of a specific subset of ETS/AP-1-responsive genes and as a modulator of the nuclear response to mitogen-activated protein kinase signaling cascades. EHF is also a putative tumor suppressor gene and may be involved in carcinogenesis.

UniProt: [Q9NZC4](#)

Application Details

Application Notes: ChIP/ChIP-seq 1 - 2 µg:ChIP
 ELISA 1:1,000 - 1:50,000
 WB not recommended

Restrictions: For Research Use only

Handling

Format: Liquid

Concentration: 1.1 µg/µL

Buffer: PBS, 0.05 % azide

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: -20 °C
