

Datasheet for ABIN6963945
anti-APOB antibody (Biotin)

5 Publications

[Go to Product page](#)

Overview

Quantity:	1 mg
Target:	APOB
Reactivity:	Human, Non-Human Primate
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This APOB antibody is conjugated to Biotin
Application:	Western Blotting (WB), ELISA

Product Details

Immunogen:	Human LDL
Clone:	LDL 11
Isotype:	IgG1
Specificity:	Native apoB in the form of LDL.
Cross-Reactivity (Details):	The monoclonal antibody cross-reacts with apoB from non-human primates.
Purification:	Purified from in vitro cultures by protein G affinity chromatography.

Target Details

Target:	APOB
Alternative Name:	apoB (APOB Products)
Gene ID:	338

Target Details

Pathways: [Lipid Metabolism](#)

Application Details

Application Notes:	For quantification of apoB in serum/plasma samples and cell culture supernatants using ELISA. LDL 11 is recommended as detection mAb in combination with coating mAb LDL 20/17 . The antibody is also suitable for immunoprecipitation and Western blot.
Comment:	Biotinylated through reaction with a N-hydroxysuccinimide ester of biotin.
Restrictions:	For Research Use only

Handling

Format:	Liquid
Concentration:	1 mg/mL
Buffer:	supplied at 1 mg/mL in PBS with 0.02 % sodium azide
Preservative:	Sodium azide
Precaution of Use:	This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
Storage:	4 °C, -20 °C
Storage Comment:	Store product at 4-8°C or frozen at -20°C or below. Avoid repeated freezing/ thawing.
Expiry Date:	18 months
