Target Details

Alternative Name:	CILP (CILP Products)
Background:	<p>Synonyms: CILP-1, HsT18872, Cartilage intermediate layer protein 1, Cartilage intermediate-layer protein, CILP, UNQ602/PRO1188</p> <p>Background: Probably plays a role in cartilage scaffolding. May act by antagonizing TGF-beta1 (TGFB1) and IGF1 functions. Has the ability to suppress IGF1-induced proliferation and sulfated proteoglycan synthesis, and inhibits ligand-induced IGF1R autophosphorylation. May inhibit TGFB1-mediated induction of cartilage matrix genes via its interaction with TGFB1.</p> <p>Overexpression may lead to impair chondrocyte growth and matrix repair and indirectly promote inorganic pyrophosphate (PPI) supersaturation in aging and osteoarthritis cartilage.</p>
Gene ID:	8483
UniProt:	O75339
