## Datasheet for ABIN6990424 anti-PHAP I antibody (C-Term)

Overview

Quantity:	0.1 mg
Target:	PHAPI
Binding Specificity:	C-Term
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This PHAP I antibody is un-conjugated
Application:	Western Blotting (WB), ELISA, Immunocytochemistry (ICC), Immunofluorescence (IF)
Product Details	
Immunogen:	Anti-PHAP I antibody was raised against a peptide corresponding to 15 amino acids near the
	carboxy terminus of human PHAP I. The immunogen is located within the last 50 amino acids
	of PHAP I.
Isotype:	IgG
Specificity:	This polyclonal antibody has no cross-reaction to PHAP I2a and PHAP III.
Purification:	PHAP I Antibody is affinity chromatography purified via peptide column.
Target Details	
Target:	PHAPI
Abstract:	PHAP I Products

Background:	PHAP I Antibody: Apoptosis is related to many diseases and development. Caspase-9 plays a central role in cell death induced by a variety of apoptosis activators. Cytochrome c, after released from mitochondria, binds to Apaf-1, which forms an apoptosome that in turn binds to and activate procaspase-9. Activated caspase-9 cleaves and activates the effector caspases
	(caspase-3, -6 and -7), which are responsible for the proteolytic cleavage of many key proteins
	in apoptosis. The tumor suppressor putative HLA-DR-associated proteins (PHAPs) were
	facilitate apoptosome-medicated caspase-9 activation and to stimulate the mitochondrial
	apoptotic pathway. PHAP was also shown to oppose both Ras- and Myc-medicated cell
	transformation.
Molecular Weight:	Predicted: 29kD
	Observed: 29 kD kDa
Gene ID:	8125
UniProt:	P39687
Application Details	
Application Notes:	WB: 2-4 μ,g/mL, ICC: 2 μ,g/mL, IF: 10 ?g/mL.
	Antibody validated: Western Blot in human, mouse and rat samples, Immunocytochemistry in
	human samples, Immunofluorescence in human samples. All other applications and species not yet tested.
Restrictions:	For Research Use only
Handling	
Format:	Liquid
Concentration:	1 mg/mL
Buffer:	PHAP I Antibody is supplied in PBS containing 0.02 % sodium azide.
Preservative:	Sodium azide
Precaution of Use:	This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
Storage:	-20 °C,4 °C

Order at www.antibodies-online.com | www.antikoerper-online.de | www.anticorps-enligne.fr | www.antibodies-online.cn International: +49 (0)241 95 163 153 | USA & Canada: +1 877 302 8632 | support@antibodies-online.com Page 2/3 | Product datasheet for ABIN6990424 | 09/10/2023 | Copyright antibodies-online. All rights reserved. Storage Comment:

PHAP I antibody can be stored at 4°C for three months and -20°C, stable for up to one year. As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies should not be exposed to prolonged high temperatures.
