anti-Caspase 6 antibody (N-Term)

Go to Product page

_					
	W	0	rv	10	W

Quantity:	0.1 mg	
Target:	Caspase 6 (CASP6)	
Binding Specificity:	N-Term	
Reactivity:	Human	
Host:	Rabbit	
Clonality:	Polyclonal	
Conjugate:	This Caspase 6 antibody is un-conjugated	
Application:	Western Blotting (WB), ELISA, Immunocytochemistry (ICC)	
Product Details		
Immunogen:	Caspase-6 antibody was raised against a 15 amino acid synthetic peptide from near the aminoterminus of human Caspase-6. The immunogen is located within the first 50 amino acids of Caspase-6.	
Isotype:	IgG	
Specificity:	Depending on cell lines or tissues used, either full-length or other cleavage products may be observed.	
Purification:	Caspase-6 Antibody is affinity chromatography purified via peptide column.	
Target Details		
Target:	Caspase 6 (CASP6)	
Alternative Name:	Caspase-6 (CASP6 Products)	

Target Details

Preservative:

Precaution of Use:

Larget Details				
Background:	Caspase-6 Antibody: Caspases are a family of cysteine proteases that can be divided into the			
	apoptotic and inflammatory caspase subfamilies. Unlike the apoptotic caspases, members of			
	the inflammatory subfamily are generally not involved in cell death but are associated with the			
	immune response to microbial pathogens. The apoptotic subfamily can be further divided into			
	initiator caspases, which are activated in response to death signals, and executioner caspases			
	which are activated by the initiator caspases and are responsible for cleavage of cellular			
	substrates that ultimately lead to cell death. Caspase-6 is an executioner caspase that was			
	idientifed based on its homology with human caspases 2 and 3 as well as the C. elegans cell			
	death protein CED-3. It possesses two isoforms, of which only the longer form possesses			
	protease activity. Caspase-6 is highly expressed in adult brain and may play a role in several			
	neuronal pathologies.			
Gene ID:	839			
NCBI Accession:	NP_001217			
UniProt:	P55212			
Pathways:	Apoptosis, Caspase Cascade in Apoptosis			
Application Details				
Application Notes:	Caspase-6 antibody can be used for the detection of caspase-6 by Western blot at 0.5 to 2 μ ,			
	g/mL. Antibody can also be used for immunocytochemistry starting at 2 μ ,g/mL.			
	Antibody validated: Western Blot in human samples and Immunocytochemistry in human			
	samples. All other applications and species not yet tested.			
Restrictions:	For Research Use only			
Handling				
Format:	Liquid			
Concentration:	1 mg/mL

Sodium azide

Caspase-6 Antibody is supplied in PBS containing 0.02 % sodium azide.

This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which

Handling

Storage:	-20 °C,4 °C
Storage Comment:	Caspase-6 antibody can be stored at 4°C for three months and -20°C, stable for up to one year.
	As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies
	should not be exposed to prolonged high temperatures.
