Datasheet for ABIN6991160 anti-MAK10/NAA35 antibody (AA 420-470)

-online.com antibodies

Overview

Alternative Name:

01010100	
Quantity:	0.1 mg
Target:	MAK10/NAA35 (MAK10)
Binding Specificity:	AA 420-470
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This MAK10/NAA35 antibody is un-conjugated
Application:	Western Blotting (WB), ELISA, Immunohistochemistry (Paraffin-embedded Sections) (IHC (p))
Product Details	
Immunogen:	MAK10 antibody was raised against a 14 amino acid synthetic peptide near the center of human MAK10. The immunogen is located within amino acids 420 - 470 of MAK10.
Isotype:	IgG
Purification:	MAK10 Antibody is affinity chromatography purified via peptide column.
Target Details	
Target:	MAK10/NAA35 (MAK10)

Background:	MAK10 Antibody: The MAK10 gene encodes a 733-amino acid protein with several regions of
	similarity to T cell receptor alpha-subunit V (variable) regions in yeast. The mammalian
	homologue of yeast MAK10, also known as EGAP, is one subunit of a novel N-terminal

	acetyltransferase (NAT) that is highly conserved among vertebrate species. It is expressed in a variety of tissues in the developing rat embryo but restricted in expression in the adult, remaining detectable only in tissues undergoing continual cell renewal or in cells responding to pathological injury. The MAK10-NAT complex is an essential regulatory enzyme controlling the function of a subset of proteins required for embryonic growth control and vessel development. This complex functionally co-assembles in mammalian cells to regulate cell proliferation and is essential for embryonic development, at least in part through the regulation of target of rapamycin (TOR) signaling events. At least two isoforms of MAK10 are known to exist.
Gene ID:	60560
NCBI Accession:	NP_078911
UniProt:	Q5VZE5
Application Details	
Application Notes:	MAK10 antibody can be used for detection of MAK10 by Western blot at 1 - 2 μ ,g/mL. Antibody can also be used for immunohistochemistry starting at 5 μ ,g/mL.
	Antibody validated: Western Blot in mouse samples and Immunohistochemistry in human samples. All other applications and species not yet tested.
Restrictions:	For Research Use only
Handling	
Format:	Liquid
Concentration:	1 mg/mL
Buffer:	MAK10 Antibody is supplied in PBS containing 0.02 % sodium azide.
Preservative:	Sodium azide
Precaution of Use:	This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
Storage:	-20 °C,4 °C
Storage Comment:	MAK10 antibody can be stored at 4°C for three months and -20°C, stable for up to one year. As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies should not be exposed to prolonged high temperatures.
