

Datasheet for ABIN7013383

KLRK1 Protein (AA 73-216) (His tag)**2** Images[Go to Product page](#)

Overview

Quantity:	100 µg
Target:	KLRK1
Protein Characteristics:	AA 73-216
Origin:	Human
Source:	HEK-293 Cells
Protein Type:	Recombinant
Biological Activity:	Active
Purification tag / Conjugate:	This KLRK1 protein is labelled with His tag.

Product Details

Characteristics:	Human NKG2D / CD314 Protein, His Tag
Purity:	>90 % as determined by reduced SDS-PAGE.
Endotoxin Level:	Less than 1.0 EU per µg by the LAL method.

Target Details

Target:	KLRK1
Alternative Name:	NKG2D (KLRK1 Products)
Background:	<p>NKG2D is a transmembrane protein belonging to the CD94/NKG2 family of C-type lectin-like receptors, also known as KLRK1, CD314, D12S2489E, KLR and killer cell lectin like receptor K1.</p> <p>NKG2D itself forms a homodimer whose ectodomains serve for ligand binding. NKG2D is a major recognition receptor for the detection and elimination of transformed and infected cells</p>

Target Details

as its ligands are induced during cellular stress, either as a result of infection or genomic stress such as in cancer. In NK cells, NKG2D serves as an activating receptor, which itself is able to trigger cytotoxicity. The function of NKG2D on CD8+ T cells is to send co-stimulatory signals to activate them.

Molecular Weight:	18.5 kDa
Pathways:	Activation of Innate immune Response , Cellular Response to Molecule of Bacterial Origin , Regulation of Leukocyte Mediated Immunity , Positive Regulation of Immune Effector Process

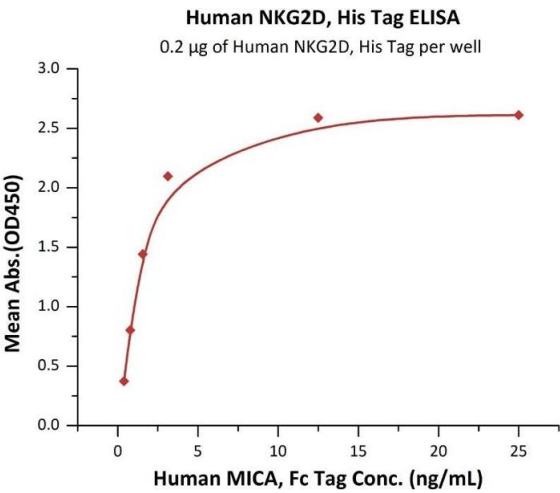

Application Details

Restrictions:	For Research Use only
---------------	-----------------------

Handling

Format:	Lyophilized
Buffer:	PBS, pH 7.4
Storage:	-20 °C

Images

ELISA

Image 1. Immobilized Human NKG2D, His Tag (ABIN6973179) at 2 µg/mL (100 µL/well) can bind Human MICA, Fc Tag (ABIN6973157) with a linear range of 0.5-2 ng/mL (QC tested).

SDS-PAGE

Image 2. Human NKG2D, His Tag on under reducing (R) condition. The gel was stained overnight with Coomassie Blue. The purity of the protein is greater than 90 % .
