Streptavidin Poly-HRP Conjugate Stabilizer

Overview

Quantity:	1 L
Application:	Immunohistochemistry (IHC)

Product Details

Characteristics:	Streptavidin Poly-HRP Conjugate is streptavidin biotin-binding protein that is conjugated with polymers of horseradish peroxidase, enabling signal amplification and detection of biotinylated antibodies for IHC and other methods. This poly-HRP conjugate is designed to deliver the highest sensitivity and low background in immunoassays where sample volume is limited or when the target molecule is present at low levels. . Synonyms: Streptavidin-Poly-HRP Conjugate Stabilizer biotin-free.
