#### Go to Product page

#### Overview

| Quantity:    | 50 tests                                |
|--------------|---|
| Target:      | CD45 (PTPRC)                            |
| Reactivity:  | Human                                   |
| Host:        | Mouse                                   |
| Clonality:   | Monoclonal                              |
| Conjugate:   | This CD45 antibody is conjugated to APC |
| Application: | Flow Cytometry (FACS)                   |

#### **Product Details**

Purpose:

Immunogen:

| 9 -              |  |
|------------------|--|
| Clone:           | F10-89-4   |
| Isotype:         | IgG2a, kappa   |
| Characteristics: | The clone F10-89-4, a mouse monoclonal antibody, recognizes a hematopoietic cell surface       |
|                  | antigen known as CD45 which is present on all human leukocytes including lymphocytes,          |
|                  | monocytes, granulocytes, eosinophils, and basophils in peripheral blood. CD45 has a role in    |
|                  | signal transduction, modifying signals from other surface molecules. The CD45 antibody has     |
|                  | been reported to react weakly with mature circulating erythrocytes and platelets. The antibody |
|                  | recognizes the human leukocyte common antigen which is found on cells from spleen, lymph       |
|                  | nodes, 83 % bone marrow cells, and granulocytes. The antigen recognized by F10-89-4 is a       |
|                  | glycoprotein with a molecular weight of 190 kDa to 215 kDa                                     |
|                  |  |

CD45 APC Antibody

Human T lymphocytes

#### **Product Details**

| Purification: | Purified            |
|---------------|---------------------|
| Purity:       | >95 %               |
| Grade:        | GMP Grade (Analyte) |

# Target Details

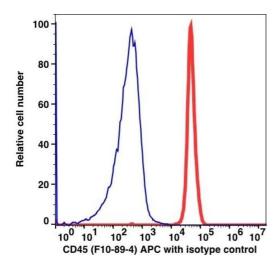

| Target:           | CD45 (PTPRC)  |
|-------------------|---|
| Alternative Name: | CD45 (PTPRC Products)   |
| Gene ID:          | 5788  |
| NCBI Accession:   | NM_002838   |
| UniProt:          | P08575  |
| Pathways:         | TCR Signaling, Regulation of Leukocyte Mediated Immunity, Positive Regulation of Immune Effector Process, Production of Molecular Mediator of Immune Response, CXCR4-mediated Signaling Events, BCR Signaling |

## **Application Details**

| Application Notes: | FC: 5 µL/test We recommend that every lab carries out an initial titration study before running |
|--------------------|---|
|                    | your samples to ensure that the optimal concentration is selected for your application.         |
| Restrictions:      | For Research Use only   |

# Handling

| Format:            | Liquid   |
|--------------------|--|
| Buffer:            | PBS, pH 7.2, 0.09 % Sodium azide and 0.2 % (w/v) BSA   |
| Preservative:      | Sodium azide   |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | 4 °C   |
| Storage Comment:   | 2-8°C, Conjugated antibodies should never be frozen.   |
