Datasheet for ABIN7091328  
**anti-Laminin antibody (AA 1467-1786) (HRP)**

### Overview

|                      |  |
|----------------------|--|
| Quantity:            | 100 µL   |
| Target:              | Laminin (LN)   |
| Binding Specificity: | AA 1467-1786   |
| Reactivity:          | Human, Mouse   |
| Host:                | Rabbit   |
| Clonality:           | Polyclonal   |
| Conjugate:           | This Laminin antibody is conjugated to HRP   |
| Application:         | Western Blotting (WB), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)) |

### Product Details

|                   |                           |
|-------------------|---------------------------|
| Immunogen:        | Recombinant human laminin |
| Isotype:          | IgG                       |
| Cross-Reactivity: | Human, Mouse              |
| Purification:     | Purified by Protein A.    |

### Target Details

|                   |  |
|-------------------|--|
| Target:           | Laminin (LN)   |
| Alternative Name: | laminin ( <a href="#">LN Products</a> )  |
| Background:       | Synonyms: LAMA 1, LAMA, LAMA1, LAMB1, Laminin A chain, Laminin alpha 1, Laminin alpha 1 chain, Laminin B1 chain, Laminin subunit beta 1. |

## Target Details

---

Background: Binding to cells via a high affinity receptor, laminin is thought to mediate the attachment, migration and organization of cells into tissues during embryonic development by interacting with other extracellular matrix components.

Gene ID: 284217

UniProt: [P25391](#)

## Application Details

---

Application Notes: WB 1:300-5000  
IHC-P 1:200-400

Restrictions: For Research Use only

## Handling

---

Concentration: 1 µg/µL

Buffer: Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1 % BSA, 0.03 % Proclin300 and 50 % Glycerol.

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: -20 °C

Storage Comment: Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.
