

Datasheet for ABIN7092737  
**TLR3 Protein (AA 28-80) (His tag)**

[Go to Product page](#)

1 Image

## Overview

Quantity:	100 µg
Target:	TLR3
Protein Characteristics:	AA 28-80
Origin:	Human
Source:	HEK-293 Cells
Protein Type:	Recombinant
Purification tag / Conjugate:	This TLR3 protein is labelled with His tag.

## Product Details

Purpose:	Recombinant human TLR3 protein with C-terminal 6xHis tag
Specificity:	TLR3 (Glu28-Pro80) 6xHis tag
Characteristics:	Extracellular Domain Protein
Purification:	Purified from cell culture supernatant by affinity chromatography
Purity:	The purity of the protein is greater than 95 % as determined by SDS-PAGE and Coomassie blue staining.

## Target Details

Target:	TLR3
Alternative Name:	TLR3 ( <a href="#">TLR3 Products</a> )
Background:	The protein encoded by this gene is a member of the Toll-like receptor (TLR) family which plays

## Target Details

---

a fundamental role in pathogen recognition and activation of innate immunity. TLRs are highly conserved from *Drosophila* to humans and share structural and functional similarities. They recognize pathogen-associated molecular patterns (PAMPs) that are expressed on infectious agents, and mediate the production of cytokines necessary for the development of effective immunity. The various TLRs exhibit different patterns of expression. This receptor is most abundantly expressed in placenta and pancreas, and is restricted to the dendritic subpopulation of the leukocytes. It recognizes dsRNA associated with viral infection, and induces the activation of NF-kappaB and the production of type I interferons. It may thus play a role in host defense against viruses. Use of alternative polyadenylation sites to generate different length transcripts has been noted for this gene. [provided by RefSeq, Jul 2008]

---

Molecular Weight: predicted molecular mass of 78.2 kDa after removal of the signal peptide. The apparent molecular mass of TLR3-His is 130-180 kDa due to glycosylation.

## Application Details

---

Restrictions: For Research Use only

## Handling

---

Format: Lyophilized

Buffer: Lyophilized from sterile PBS, pH 7.4. Normally 5 % - 8 % trehalose is added as protectants before lyophilization.

Storage: -20 °C,-80 °C

Storage Comment: Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature.

---

Expiry Date: 12 months

### SDS-PAGE

**Image 1.** Human Protein, His Tag on SDS-PAGE under reducing condition.
