## anti-LZTFL1 antibody (Internal Region)

[Go to Product page](#)

### Overview

|                      |                                                                                                          |
|----------------------|----------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                   |
| Target:              | LZTFL1                                                                                                   |
| Binding Specificity: | Internal Region                                                                                          |
| Reactivity:          | Human, Mouse, Rat                                                                                        |
| Host:                | Rabbit                                                                                                   |
| Clonality:           | Polyclonal                                                                                               |
| Conjugate:           | This LZTFL1 antibody is un-conjugated                                                                    |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunofluorescence (IF),<br>Immunocytochemistry (ICC) |

### Product Details

|                       |                                                                                                             |
|-----------------------|-------------------------------------------------------------------------------------------------------------|
| Immunogen:            | A synthesized peptide derived from human LZTFL1, corresponding to a region within the internal amino acids. |
| Isotype:              | IgG                                                                                                         |
| Specificity:          | LZTFL1 Antibody detects endogenous levels of total LZTFL1.                                                  |
| Predicted Reactivity: | Pig,Horse,Rabbit,Dog                                                                                        |

### Target Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Target:           | LZTFL1                                     |
| Alternative Name: | LZTFL1 ( <a href="#">LZTFL1 Products</a> ) |

## Target Details

Gene ID: 54585

UniProt: [Q9NQ48](#)

## Application Details

Application Notes: WB 1:500-1:2000, IF/ICC 1:100-1:500, IHC 1:50-1:200

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: Rabbit IgG in phosphate buffered saline , pH 7.4, 150 mM NaCl, 0.02 % sodium azide and 50 % glycerol.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: -20 °C

Storage Comment: Store at -20 °C. Stable for 12 months from date of receipt.

Expiry Date: 12 months
