

Datasheet for ABIN709697

## **anti-MFAP3L antibody (AA 61-160) (Cy7)**

[Go to Product page](#)

### Overview

|                      |                                                                                                         |
|----------------------|---------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                  |
| Target:              | MFAP3L                                                                                                  |
| Binding Specificity: | AA 61-160                                                                                               |
| Reactivity:          | Human                                                                                                   |
| Host:                | Rabbit                                                                                                  |
| Clonality:           | Polyclonal                                                                                              |
| Conjugate:           | This MFAP3L antibody is conjugated to Cy7                                                               |
| Application:         | Immunofluorescence (Cultured Cells) (IF (cc)), Immunofluorescence (Paraffin-embedded Sections) (IF (p)) |

### Product Details

|                       |                                                            |
|-----------------------|------------------------------------------------------------|
| Immunogen:            | KLH conjugated synthetic peptide derived from human MFAP3L |
| Isotype:              | IgG                                                        |
| Predicted Reactivity: | Human,Mouse,Rat,Dog,Cow,Horse,Rabbit                       |
| Purification:         | Purified by Protein A.                                     |

### Target Details

|                   |                                                                                      |
|-------------------|--------------------------------------------------------------------------------------|
| Target:           | MFAP3L                                                                               |
| Alternative Name: | MFAP3L ( <a href="#">MFAP3L Products</a> )                                           |
| Background:       | Synonyms: HSD 39, HSD39, KIAA0626, MFAP 3L, Microfibrillar associated protein 3 like |

Target Details

|          |                                                                                                                                                                                                                                                                                                                                                              |
|----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|          | [Precursor], Microfibrillar associated protein 3 like, NYD sp9, Testis development protein NYD SP9, MFA3L_HUMAN.<br><br>Background: MFAP3L is a membrane protein that is highly expressed in testis. It contains 1 Ig-like C2-type (immunoglobulin-like) domain and has three named isoforms produced by alternative splicing. Its function remains unknown. |
| Gene ID: | 80099                                                                                                                                                                                                                                                                                                                                                        |

Application Details

|                    |                                                              |
|--------------------|--------------------------------------------------------------|
| Application Notes: | IF(IHC-P) 1:50-200<br>IF(IHC-F) 1:50-200<br>IF(ICC) 1:50-200 |
| Restrictions:      | For Research Use only                                        |

Handling

|                    |                                                                                                                    |
|--------------------|--------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                             |
| Concentration:     | 1 µg/µL                                                                                                            |
| Buffer:            | Aqueous buffered solution containing 0.01M TBS ( pH 7.4) with 1 % BSA, 0.03 % Proclin300 and 50 % Glycerol.        |
| Preservative:      | ProClin                                                                                                            |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                             |
| Storage Comment:   | Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.                                  |
| Expiry Date:       | 12 months                                                                                                          |
