## anti-Adiponectin Receptor 1 antibody

[Go to Product page](#)

### Overview

|              |                                                       |
|--------------|-------------------------------------------------------|
| Quantity:    | 100 µg                                                |
| Target:      | Adiponectin Receptor 1 (ADIPOR1)                      |
| Reactivity:  | Human                                                 |
| Host:        | Mouse                                                 |
| Clonality:   | Monoclonal                                            |
| Conjugate:   | This Adiponectin Receptor 1 antibody is un-conjugated |
| Application: | Western Blotting (WB), ELISA                          |

### Product Details

|               |                                 |
|---------------|---------------------------------|
| Immunogen:    | adiponectin receptor 1          |
| Clone:        | 3C3                             |
| Isotype:      | IgG1                            |
| Purification: | Protein A+G purification        |
| Purity:       | ≥95 % as determined by SDS-PAGE |

### Target Details

|                   |                                                                                                                             |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Target:           | Adiponectin Receptor 1 (ADIPOR1)                                                                                            |
| Alternative Name: | ADIPOR1 ( <a href="#">ADIPOR1 Products</a> )                                                                                |
| Background:       | Synonyms:ACDCR1, Adiponectin receptor 1, Adiponectin receptor protein 1, ADIPOR1, CGI 45, CGI45, PAQR1, TESBP1A Background: |

### Target Details

|                   |                                |
|-------------------|--------------------------------|
| Molecular Weight: | 43 kDa                         |
| Gene ID:          | 51094                          |
| UniProt:          | <a href="#">Q96A54</a>         |
| Pathways:         | <a href="#">AMPK Signaling</a> |

### Application Details

|                    |                       |
|--------------------|-----------------------|
| Application Notes: | WB: 1:500 - 1:3000    |
| Restrictions:      | For Research Use only |

### Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | PBS with 0.02 % sodium azide and 50 % glycerol pH 7.3,                                                                 |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C for 12 months (Avoid repeated freeze / thaw cycles.)                                                             |
| Expiry Date:       | 12 months                                                                                                              |
