

## Datasheet for ABIN7114222 **anti-Fibromodulin antibody**

[Go to Product page](#)

### Overview

|              |                                             |
|--------------|---------------------------------------------|
| Quantity:    | 100 µg                                      |
| Target:      | Fibromodulin (FMOD)                         |
| Reactivity:  | Human, Mouse                                |
| Host:        | Mouse                                       |
| Clonality:   | Monoclonal                                  |
| Conjugate:   | This Fibromodulin antibody is un-conjugated |
| Application: | Immunohistochemistry (IHC), ELISA           |

### Product Details

|               |                                 |
|---------------|---------------------------------|
| Immunogen:    | fibromodulin                    |
| Clone:        | 7B2                             |
| Isotype:      | IgG2a                           |
| Purification: | Protein A+G purification        |
| Purity:       | ≥95 % as determined by SDS-PAGE |

### Target Details

|                   |                                                                         |
|-------------------|-------------------------------------------------------------------------|
| Target:           | Fibromodulin (FMOD)                                                     |
| Alternative Name: | Fibromodulin ( <a href="#">FMOD Products</a> )                          |
| Background:       | Synonyms: fibromodulin, FM, FMOD, KSPG fibromodulin, SLRR2E Background: |
| Molecular Weight: | 43 kDa                                                                  |

### Target Details

|           |                                                     |
|-----------|-----------------------------------------------------|
| Gene ID:  | 2331                                                |
| UniProt:  | <a href="#">Q06828</a>                              |
| Pathways: | <a href="#">Glycosaminoglycan Metabolic Process</a> |

### Application Details

|                    |                       |
|--------------------|-----------------------|
| Application Notes: | IHC: 1:100 - 1:600    |
| Restrictions:      | For Research Use only |

### Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | PBS with 0.02 % sodium azide and 50 % glycerol pH 7.3 ,                                                                |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C for 12 months (Avoid repeated freeze / thaw cycles.)                                                             |
| Expiry Date:       | 12 months                                                                                                              |
