()	ve	I V I	-v	V

Quantity:	100 μg
Target:	HIVEP1
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This HIVEP1 antibody is un-conjugated
Application:	ELISA, Immunohistochemistry (IHC)

Product Details

Immunogen:	human immunodeficiency virus type I enhancer binding protein 1
Isotype:	IgG
Purification:	Immunogen affinity purified
Purity:	≥95 % as determined by SDS-PAGE

Target Details

Target:	HIVEP1	
Alternative Name:	HIVEP1 (HIVEP1 Products)	
Background:	Synonyms:ZNF40 Background:This protein specifically binds to the DNA sequence 5'-	
	GGGACTTTCC-3' which is found in the enhancer elements of numerous viral promoters such as	
	those of SV40, CMV, or HIV-1. In addition, related sequences are found in the enhancer	
	elements of a number of cellular promoters, including those of the class I MHC, interleukin-2	

Target Details

receptor, and interferon-beta genes. It may act in T-cell activation. Involved in activating HIV-1 gene expression. Isoform 2 and isoform 3 also bind to the IPCS(IRF1 and p53 common sequence) DNA sequence in the promoter region of interferon regulatory factor 1 and p53 genes and are involved in transcription regulation of these genes. Isoform 2 does not activate HIV-1 gene expression. Isoform 2 and isoform 3 may be involved in apoptosis.

Gene ID:

3096

UniProt:

P15822

Application Details

Application Notes: IHC: 1:20-1:200

Restrictions: For Research Use only

Handling

Format:	Liquid
Buffer:	PBS with 0.02 % sodium azide and 50 % glycerol pH 7.3,
Preservative:	Sodium azide
Precaution of Use:	This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
Storage:	-20 °C
Storage Comment:	-20°C for 12 months (Avoid repeated freeze / thaw cycles.)
Expiry Date:	12 months
