SSX5	
SSX5 (SSX5 Products)	
Synonyms: Background:The product of this gene belongs to the family of highly homologous synovial sarcoma X (SSX) breakpoint proteins. These proteins may function as transcriptional repressors. They are also capable of eliciting spontaneous humoral and cellular immune responses in cancer patients, and are potentially useful targets in cancer vaccine-based	

Target Details

immunotherapy. While some of the related SSX genes are involved in t(X,18)(p11.2,q11.2)
translocations that are characteristically found in all synovial sarcomas, this gene does not
appear to be involved in such translocations. Two transcript variants encoding distinct isoforms
have been identified for this gene.

Molecular Weight:	27 kDa
-------------------	--------

Gene ID: 6758

UniProt: 060225

Application Details

|--|

Restrictions: For Research Use only

Handling

Format:	Liquid	
Buffer:	PBS with 0.02 % sodium azide and 50 % glycerol pH 7.3 ,	
Preservative:	Sodium azide	
Precaution of Use:	This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.	
Storage:	-20 °C	
Storage Comment:	-20°C for 12 months (Avoid repeated freeze / thaw cycles.)	
Expiry Date:	12 months
