Datasheet for ABIN7137907  
**anti-Kanamycin antibody**

### Overview

|              |  |
|--------------|--|
| Quantity:    | 100 µg                                   |
| Target:      | Kanamycin                                |
| Reactivity:  | Please inquire                           |
| Host:        | Mouse                                    |
| Clonality:   | Monoclonal                               |
| Conjugate:   | This Kanamycin antibody is un-conjugated |
| Application: | ELISA                                    |

### Product Details

|               |                         |
|---------------|-------------------------|
| Immunogen:    | Kanamycin-BSA conjugate |
| Clone:        | 3F7C11                  |
| Isotype:      | IgG1, IgG1 kappa        |
| Purification: | Protein G purified      |

### Target Details

|              |                                    |
|--------------|------------------------------------|
| Target:      | Kanamycin                          |
| Abstract:    | <a href="#">Kanamycin Products</a> |
| Target Type: | Chemical                           |
| Background:  | Amkin, biograncetin, enterokan     |

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

---

Restrictions: For Research Use only

---

## Handling

---

Format: Liquid

---

Buffer: Preservative: 0.03 % Proclin 300  
Constituents: 50 % Glycerol, 0.01M PBS, PH 7.4

---

Preservative: ProClin

---

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

---

Storage: -20 °C,-80 °C

---

Storage Comment: Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
