Quantity:	100 μL
Target:	lgG3
Binding Specificity:	AA 312-324
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This IgG3 antibody is conjugated to HRP
Application:	ELISA

Product Details

Immunogen:	Peptide sequence from Human Immunoglobulin heavy constant gamma 3 protein (312-324AA)
Isotype:	lgG
Cross-Reactivity:	Human
Purification:	>95%, Protein G purified

Target Details

Target:	lgG3
Alternative Name:	IGHG3 (IgG3 Products)
Target Type:	Antibody
Background:	Background: Constant region of immunoglobulin heavy chains. Immunoglobulins, also known

	as antibodies, are membrane-bound or secreted glycoproteins produced by B lymphocytes. In
	the recognition phase of humoral immunity, the membrane-bound immunoglobulins serve as
	receptors which, upon binding of a specific antigen, trigger the clonal expansion and
	differentiation of B lymphocytes into immunoglobulins-secreting plasma cells. Secreted
	immunoglobulins mediate the effector phase of humoral immunity, which results in the
	elimination of bound antigens (PubMed:22158414, PubMed:20176268). The antigen binding
	site is formed by the variable domain of one heavy chain, together with that of its associated
	light chain. Thus, each immunoglobulin has two antigen binding sites with remarkable affinity
	for a particular antigen. The variable domains are assembled by a process called V-(D)-J
	rearrangement and can then be subjected to somatic hypermutations which, after exposure to
	antigen and selection, allow affinity maturation for a particular antigen (PubMed:17576170,
	PubMed:20176268).
	Aliases: IGHG3Immunoglobulin heavy constant gamma 3 antibody, HDC antibody, Heavy chain
	disease protein antibody, Ig gamma-3 chain C region antibody
UniProt:	P01860
Application Details	
Application Notes:	Optimal working dilution should be determined by the investigator.
Restrictions:	For Research Use only
Handling	
Format:	Liquid
Buffer:	Preservative: 0.03 % Proclin 300
	Constituents: 50 % Glycerol, 0.01M PBS, PH 7.4
Preservative:	ProClin
Precaution of Use:	This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be
	handled by trained staff only.
Storage:	-20 °C,-80 °C
Storage Comment:	Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
