

## Datasheet for ABIN7141838 **anti-GTF2B antibody**

[Go to Product page](#)

### Overview

|              |                                                                                     |
|--------------|-------------------------------------------------------------------------------------|
| Quantity:    | 100 µL                                                                              |
| Target:      | GTF2B                                                                               |
| Reactivity:  | Human                                                                               |
| Host:        | Mouse                                                                               |
| Clonality:   | Monoclonal                                                                          |
| Conjugate:   | This GTF2B antibody is un-conjugated                                                |
| Application: | Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Immunocytochemistry (ICC) |

### Product Details

|                   |                                                         |
|-------------------|---------------------------------------------------------|
| Immunogen:        | Recombinant full length protein (316aa) of human GTF2B. |
| Isotype:          | IgG2b                                                   |
| Cross-Reactivity: | Dog, Human, Mouse, Pig, Rat                             |
| Purification:     | Affinity purified                                       |

### Target Details

|                   |                                                                                                                           |
|-------------------|---------------------------------------------------------------------------------------------------------------------------|
| Target:           | GTF2B                                                                                                                     |
| Alternative Name: | GTF2B ( <a href="#">GTF2B Products</a> )                                                                                  |
| Background:       | Transcription initiation factor IIB S300-II general transcription factor TFIIB RNA polymerase II transcription factor IIB |
| UniProt:          | <a href="#">Q00403</a>                                                                                                    |

## Application Details

|                    |                                                                     |
|--------------------|---------------------------------------------------------------------|
| Application Notes: | Recommended dilution:WB:1:500-1:5000,IHC:1:50-1:500,ICC:1:50-1:200, |
| Restrictions:      | For Research Use only                                               |

## Handling

|                    |                                                                                                                                |
|--------------------|--------------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                         |
| Buffer:            | Purified mouse monoclonal in buffer containing 0.1M Tris-Glycine ( pH 7.4, 150 mM NaCl) with 0.2 % sodium azide, 50 %,glycerol |
| Preservative:      | Sodium azide                                                                                                                   |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.         |
| Storage:           | -20 °C,-80 °C                                                                                                                  |
| Storage Comment:   | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                                                                  |
