Datasheet for ABIN7142658 anti-DCLRE1B antibody (AA 345-493) (FITC)

-online.com antibodies

Overview

Quantity:	100 µg
Target:	DCLRE1B
Binding Specificity:	AA 345-493
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This DCLRE1B antibody is conjugated to FITC
Application:	Please inquire

## Product Details

Immunogen:	Recombinant Human 5\' exonuclease Apollo protein (345-493AA)
Isotype:	lgG
Cross-Reactivity:	Human
Purification:	>95%, Protein G purified

## Target Details

Target:	DCLRE1B
Alternative Name:	DCLRE1B (DCLRE1B Products)
Background:	Background: 5\'-3\' exonuclease that plays a central role in telomere maintenance and
	protection during S-phase. Participates in the protection of telomeres against non-homologous

	end-joining (NHEJ)-mediated repair, thereby ensuring that telomeres do not fuse. Plays a key
	role in telomeric loop (T loop) formation by being recruited by TERF2 at the leading end
	telomeres and by processing leading-end telomeres immediately after their replication via its
	exonuclease activity: generates 3\' single-stranded overhang at the leading end telomeres
	avoiding blunt leading-end telomeres that are vulnerable to end-joining reactions and expose
	the telomere end in a manner that activates the DNA repair pathways. Together with TERF2,
	required to protect telomeres from replicative damage during replication by controlling the
	amount of DNA topoisomerase (TOP1, TOP2A and TOP2B) needed for telomere replication
	during fork passage and prevent aberrant telomere topology. Also involved in response to DNA
	damage: plays a role in response to DNA interstrand cross-links (ICLs) by facilitating double-
	strand break formation. In case of spindle stress, involved in prophase checkpoint.
	Aliases: DCLRE1B antibody, SNM1B5' exonuclease Apollo antibody, EC 3.1 antibody, DNA
	cross-link repair 1B protein antibody, SNM1 homolog B antibody, SNMIB antibody, hSNM1B
	antibody
UniProt:	Q9H816
Application Details	
Restrictions:	For Research Use only
Handling	
Format:	Liquid
Buffer:	Preservative: 0.03 % Proclin 300
	Constituents: 50 % Glycerol, 0.01M PBS, pH 7.4
Preservative:	ProClin
Precaution of Use:	This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be
	handled by trained staff only.
Storage:	-20 °C,-80 °C
