| Overview | | |
|----------------------|---|--|
| Quantity: | 100 μL | |
| Target: | Actin-Like 6B (ACTL6B) | |
| Binding Specificity: | AA 1-280 | |
| Reactivity: | Human | |
| Host: | Rabbit | |
| Clonality: | Polyclonal | |
| Conjugate: | This Actin-Like 6B antibody is un-conjugated | |
| Application: | Western Blotting (WB), Immunohistochemistry (IHC), ELISA | |
| Product Details | | |
| Immunogen: | Recombinant Human Actin-like protein 6B protein (1-280AA) | |
| Isotype: | IgG | |
| Cross-Reactivity: | Human | |
| Purification: | Antigen Affinity Purified | |
| Target Details | | |
| Target: | Actin-Like 6B (ACTL6B) | |
| Alternative Name: | ACTL6B (ACTL6B Products) | |
| Background: | Background: Belongs to the chromatin remodeling brain-specific BAF (bBAF) complex, as such plays a role in remodeling mononucleosomes in an ATP-dependent fashion. Belongs to the | |
| | | |

neuron-specific chromatin remodeling complex (nBAF complex) and is required for postmitotic neural development and dendritic outgrowth. During neural development a switch from a stem/progenitor to a post-mitotic chromatin remodeling mechanism occurs as neurons exit the cell cycle and become committed to their adult state. The transition from proliferating neural stem/progenitor cells to post-mitotic neurons requires a switch in subunit composition of the npBAF and nBAF complexes. As neural progenitors exit mitosis and differentiate into neurons, npBAF complexes which contain ACTL6A/BAF53A and PHF10/BAF45A, are exchanged for homologous alternative ACTL6B/BAF53B and DPF1/BAF45B or DPF3/BAF45C subunits in neuron-specific complexes (nBAF). The npBAF complex is essential for the selfrenewal/proliferative capacity of the multipotent neural stem cells. The nBAF complex along with CREST plays a role regulating the activity of genes essential for dendrite growth. ACTL6B/BAF53B is not essential for assembly of the nBAF complex but is required for targeting the complex and CREST to the promoter of genes essential for dendritic growth. Aliases: 53 kDa BRG1 associated factor B antibody, 53 kDa BRG1-associated factor B antibody, ACL 6B antibody, ACL6B antibody, ACL6B_HUMAN antibody, Actin like 6 antibody, Actin like protein 6B antibody, Actin like protein6B antibody, Actin related protein antibody, Actin related protein Baf53b antibody, actin-like 6B antibody, Actin-like protein 6B antibody, Actin-related protein Baf53b antibody, Actl 6 antibody, ACTL 6B antibody, Actl6 antibody, ACTL6 B antibody, Actl6b antibody, Arp Na antibody, ArpN a antibody, ArpN alpha antibody, ArpNa antibody, ArpNalpha antibody, Baf 53b antibody, BAF53B antibody, BRG1-associated factor 53B antibody

UniProt:

094805

Application Details

| Application Notes: | Recommended dilution: WB:1:200-1:1000, IHC:1:20-1:200, |
|--------------------|--|
| Restrictions: | For Research Use only |

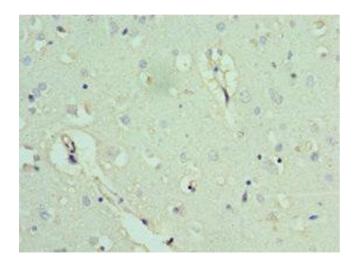

Handling

| Format: | Liquid | |
|--------------------|--|--|
| Buffer: | PBS with 0.02 % sodium azide, 50 % glycerol, pH 7.3. | |
| Preservative: | Sodium azide | |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. | |
| Storage: | -20 °C,-80 °C | |

Storage Comment:

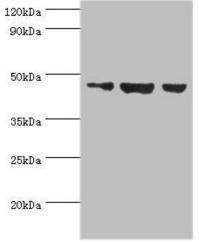

Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
