

## Datasheet for ABIN7150727 anti-MAP2K7 antibody (AA 17-160) (FITC)

Overview Quantity: 100 µg Target: MAP2K7 Binding Specificity: AA 17-160 Human Reactivity: Rabbit Host: Clonality: Polyclonal Conjugate: This MAP2K7 antibody is conjugated to FITC Application: Please inquire **Product Details** Recombinant Human Dual specificity mitogen-activated protein kinase kinase 7 protein (17-Immunogen: 160AA) Isotype: lgG Cross-Reactivity: Human Purification: >95%, Protein G purified **Target Details** 

Target:	MAP2K7
Alternative Name:	MAP2K7 (MAP2K7 Products)
Background:	Background: Dual specificity protein kinase which acts as an essential component of the MAP

kinase signal transduction pathway. Essential component of the stress-activated protein
kinase/c-Jun N-terminal kinase (SAP/JNK) signaling pathway. With MAP2K4/MKK4, is the one
of the only known kinase to directly activate the stress-activated protein kinase/c-Jun N-
terminal kinases MAPK8/JNK1, MAPK9/JNK2 and MAPK10/JNK3. MAP2K4/MKK4 and
MAP2K7/MKK7 both activate the JNKs by phosphorylation, but they differ in their preference
for the phosphorylation site in the Thr-Pro-Tyr motif. MAP2K4/MKK4 shows preference for
phosphorylation of the Tyr residue and MAP2K7/MKK7 for the Thr residue. The
monophosphorylation of JNKs on the Thr residue is sufficient to increase JNK activity
indicating that MAP2K7/MKK7 is important to trigger JNK activity, while the additional
phosphorylation of the Tyr residue by MAP2K4/MKK4 ensures optimal JNK activation. Has a
specific role in JNK signal transduction pathway activated by proinflammatory cytokines. The
MKK/JNK signaling pathway is also involved in mitochondrial death signaling pathway,
including the release cytochrome c, leading to apoptosis.
Aliases: c-Jun N-terminal kinase kinase 2 antibody, Dual specificity mitogen activated protein
kinase kinase 7 antibody, Dual specificity mitogen-activated protein kinase kinase 7 antibody,
JNK activating kinase 2 antibody, JNK kinase 2 antibody, JNK-activating kinase 2 antibody,

## Handling

Preservative:	ProClin
Precaution of Use:	This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
Storage:	-20 °C,-80 °C
Storage Comment:	Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
