Quantity:	100 µg
Target:	EXOSC1
Binding Specificity:	AA 9-195
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This EXOSC1 antibody is conjugated to FITC
Application:	Please inquire

Product Details

Immunogen:	Recombinant Human Exosome complex component CSL4 protein (9-195AA)
Isotype:	IgG
Cross-Reactivity:	Human
Purification:	>95%, Protein G purified

Target Details

Target:	EXOSC1
Alternative Name:	EXOSC1 (EXOSC1 Products)
Background:	Background: Non-catalytic component of the RNA exosome complex which has 3\'->5\'
	exoribonuclease activity and participates in a multitude of cellular RNA processing and

degradation events. In the nucleus, the RNA exosome complex is involved in proper maturation
of stable RNA species such as rRNA, snRNA and snoRNA, in the elimination of RNA processing
by-products and non-coding \'pervasive\' transcripts, such as antisense RNA species and
promoter-upstream transcripts (PROMPTs), and of mRNAs with processing defects, thereby
limiting or excluding their export to the cytoplasm. The RNA exosome may be involved in Ig
class switch recombination (CSR) and/or Ig variable region somatic hypermutation (SHM) by
targeting AICDA deamination activity to transcribed dsDNA substrates. In the cytoplasm, the
RNA exosome complex is involved in general mRNA turnover and specifically degrades
inherently unstable mRNAs containing AU-rich elements (AREs) within their 3\' untranslated
regions, and in RNA surveillance pathways, preventing translation of aberrant mRNAs. It seems
to be involved in degradation of histone mRNA. The catalytic inactive RNA exosome core
complex of 9 subunits (Exo-9) is proposed to play a pivotal role in the binding and presentation
of RNA for ribonucleolysis, and to serve as a scaffold for the association with catalytic subunits
and accessory proteins or complexes. EXOSC1 as peripheral part of the Exo-9 complex
stabilizes the hexameric ring of RNase PH-domain subunits through contacts with EXOSC6 and
EXOSC8.

Aliases: 3'-5' exoribonuclease CSL4 homolog antibody, CGI 108 antibody, CGI-108 antibody, CSL4 antibody, CSL4 exosomal core protein homolog antibody, CSL4, S. cerevisiae, homolog of antibody, Csl4p antibody, EXOS1_HUMAN antibody, Exosc1 antibody, Exosomal core protein CSL4 antibody, Exosome complex component csl4 antibody, Exosome component 1 antibody, hCsl4p antibody, Homolog of yeast exosomal core protein CSL4 antibody, p13 antibody, RP11-452K12.9 antibody, SKI4 antibody, Ski4p antibody

UniProt:

Q9Y3B2

Application Details

Restrictions:	For Research Use only
Handling	
Format:	Liquid
Buffer:	Preservative: 0.03 % Proclin 300 Constituents: 50 % Glycerol, 0.01M PBS, PH 7.4
Preservative:	ProClin
Precaution of Use:	This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be
