

Datasheet for ABIN7155651

**anti-Arx antibody (AA 381-460) (FITC)**[Go to Product page](#)

## Overview

|                      |                                         |
|----------------------|-----------------------------------------|
| Quantity:            | 100 µg                                  |
| Target:              | Arx (ARX)                               |
| Binding Specificity: | AA 381-460                              |
| Reactivity:          | Human                                   |
| Host:                | Rabbit                                  |
| Clonality:           | Polyclonal                              |
| Conjugate:           | This Arx antibody is conjugated to FITC |
| Application:         | Please inquire                          |

## Product Details

|                   |                                                            |
|-------------------|------------------------------------------------------------|
| Immunogen:        | Recombinant Human Homeobox protein ARX protein (381-460AA) |
| Isotype:          | IgG                                                        |
| Cross-Reactivity: | Human                                                      |
| Purification:     | >95%, Protein G purified                                   |

## Target Details

|                   |                                                                                                                                                                                          |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | Arx (ARX)                                                                                                                                                                                |
| Alternative Name: | ARX ( <a href="#">ARX Products</a> )                                                                                                                                                     |
| Background:       | Background: Transcription factor required for normal brain development. May be important for maintenance of specific neuronal subtypes in the cerebral cortex and axonal guidance in the |

## Target Details

floor plate.

Aliases: Aristaless related homeobox gene antibody, Aristaless-related homeobox antibody, Arx antibody, ARX\_HUMAN antibody, Homeobox protein ARX antibody, ISSX antibody, MRX29 antibody, MRX32 antibody, MRX33 antibody, MRX36 antibody, MRX38 antibody, MRX43 antibody, MRX54 antibody, MRXS1 antibody, phox2a antibody, PRTS antibody

UniProt: [Q96QS3](#)

## Application Details

Restrictions: For Research Use only

## Handling

|                    |                                                                                                                   |
|--------------------|-------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                            |
| Buffer:            | Preservative: 0.03 % Proclin 300<br>Constituents: 50 % Glycerol, 0.01M PBS, pH 7.4                                |
| Preservative:      | ProClin                                                                                                           |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C,-80 °C                                                                                                     |
| Storage Comment:   | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                                                     |
