Datasheet for ABIN7156177  
**anti-RHBDF2 antibody (AA 1-200) (FITC)**

### Overview

|                      |                                            |
|----------------------|--------------------------------------------|
| Quantity:            | 100 µL                                     |
| Target:              | RHBDF2                                     |
| Binding Specificity: | AA 1-200                                   |
| Reactivity:          | Human                                      |
| Host:                | Rabbit                                     |
| Clonality:           | Polyclonal                                 |
| Conjugate:           | This RHBDF2 antibody is conjugated to FITC |
| Application:         | Please inquire                             |

### Product Details

|                   |                                                                 |
|-------------------|-----------------------------------------------------------------|
| Immunogen:        | Recombinant Human Inactive rhomboid protein 2 protein (1-200aa) |
| Isotype:          | IgG                                                             |
| Cross-Reactivity: | Human                                                           |
| Purification:     | >95%, Protein G purified                                        |

### Target Details

|                   |                                                                                                                                                                                            |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | RHBDF2                                                                                                                                                                                     |
| Alternative Name: | RHBDF2 ( <a href="#">RHBDF2 Products</a> )                                                                                                                                                 |
| Background:       | Background: Rhomboid protease-like protein which has no protease activity but regulates the secretion of several ligands of the epidermal growth factor receptor. Indirectly activates the |

## Target Details

---

epidermal growth factor receptor signaling pathway and may thereby regulate sleep, cell survival, proliferation and migration (By similarity).

Aliases: Inactive rhomboid protein 2 (iRhom2) (Rhomboid 5 homolog 2) (Rhomboid family member 2) (Rhomboid veinlet-like protein 5) (Rhomboid veinlet-like protein 6), RHBDF2, IRHOM2 RHBDL5 RHBDL6

---

UniProt: [Q6PJF5](#)

---

Pathways: [Growth Factor Binding](#)

## Application Details

---

Restrictions: For Research Use only

## Handling

---

Format: Liquid

---

Buffer: Preservative: 0.03 % Proclin 300  
Constituents: 50 % Glycerol, 0.01M PBS, pH 7.4

---

Preservative: ProClin

---

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

---

Storage: -20 °C,-80 °C

---

Storage Comment: Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
