

Datasheet for ABIN7156874

**anti-IL-24 antibody (AA 52-207) (FITC)**[Go to Product page](#)

## Overview

|                      |                                           |
|----------------------|-------------------------------------------|
| Quantity:            | 100 µg                                    |
| Target:              | IL-24 (IL24)                              |
| Binding Specificity: | AA 52-207                                 |
| Reactivity:          | Human                                     |
| Host:                | Rabbit                                    |
| Clonality:           | Polyclonal                                |
| Conjugate:           | This IL-24 antibody is conjugated to FITC |
| Application:         | Please inquire                            |

## Product Details

|                   |                                                     |
|-------------------|-----------------------------------------------------|
| Immunogen:        | Recombinant Human Interleukin-24 protein (52-207AA) |
| Isotype:          | IgG                                                 |
| Cross-Reactivity: | Human                                               |
| Purification:     | >95%, Protein G purified                            |

## Target Details

|                   |                                                                                                                     |
|-------------------|---------------------------------------------------------------------------------------------------------------------|
| Target:           | IL-24 (IL24)                                                                                                        |
| Alternative Name: | IL24 ( <a href="#">IL24 Products</a> )                                                                              |
| Background:       | Background: Has antiproliferative properties on melanoma cells and may contribute to terminal cell differentiation. |

## Target Details

Aliases: C49A antibody, FISP antibody, IL 24 antibody, IL 4 induced secreted protein antibody, IL-24 antibody, IL10B antibody, IL24 antibody, IL24\_HUMAN antibody, interleukin 24 antibody, Interleukin-24 antibody, MDA-7 antibody, MDA7 antibody, Melanocyte associated Mda 7 antibody, Melanoma differentiation association protein 7 antibody, Melanoma differentiation-associated gene 7 protein antibody, Mob5 antibody, ST16 antibody, Suppression of tumorigenicity 16 (melanoma differentiation) antibody, Suppression of tumorigenicity 16 antibody, Suppression of tumorigenicity 16 protein antibody

|           |                                                                                                                                                               |
|-----------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| UniProt:  | <a href="#">Q13007</a>                                                                                                                                        |
| Pathways: | <a href="#">Cellular Response to Molecule of Bacterial Origin</a> , <a href="#">Positive Regulation of Endopeptidase Activity</a> , <a href="#">Autophagy</a> |

## Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

|                    |                                                                                                                   |
|--------------------|-------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                            |
| Buffer:            | Preservative: 0.03 % Proclin 300<br>Constituents: 50 % Glycerol, 0.01M PBS, PH 7.4                                |
| Preservative:      | ProClin                                                                                                           |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C,-80 °C                                                                                                     |
| Storage Comment:   | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                                                     |
