()	11/0	K\ /	iew
	\cup	'I V/I	$I \cap VV$

Quantity:	100 μL
Target:	LRAT
Binding Specificity:	AA 24-182
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This LRAT antibody is conjugated to HRP
Application:	ELISA

Product Details

Immunogen:	Recombinant Human Lecithin retinol acyltransferase protein (24-182AA)	
Isotype:	IgG	
Cross-Reactivity:	Human	
Purification:	>95%, Protein G purified	

Target Details

Target:	LRAT	
Alternative Name:	LRAT (LRAT Products)	
Background:	Background: Transfers the acyl group from the sn-1 position of phosphatidylcholine to all-trans	
	retinol, producing all-trans retinyl esters. Retinyl esters are storage forms of vitamin A. LRAT	

Target Details

plays a critical role in vision. It provides the all-trans retinyl ester substrates for the isomerohydrolase which processes the esters into 11-cis-retinol in the retinal pigment epithelium, due to a membrane-associated alcohol dehydrogenase, 11 cis-retinol is oxidized and converted into 11-cis-retinaldehyde which is the chromophore for rhodopsin and the cone photopigments.

Aliases: LCA14 antibody, Lecithin retinol acyltransferase (phosphatidylcholine retinol O acyltransferase) antibody, Lecithin retinol acyltransferase antibody, LRAT antibody, LRAT_HUMAN antibody, Phosphatidylcholine retinol O acyltransferase antibody, Phosphatidylcholine--retinol O-acyltransferase antibody

UniProt:

095237

Application Details

Application Notes:	Optimal working dilution should be determined by the investigator.	
Restrictions:	For Research Use only	
Handling		
Format:	Liquid	
Buffer:	Preservative: 0.03 % Proclin 300 Constituents: 50 % Glycerol, 0.01M PBS, pH 7.4	
Preservative:	ProClin	
Precaution of Use:	This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.	
Storage:	-20 °C,-80 °C	
Storage Comment:	Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
