Datasheet for ABIN7158125
anti-FLRT3 antibody (AA 209-264) (HRP)

Overview

Quantity:	100 µg
Target:	FLRT3
Binding Specificity:	AA 209-264
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This FLRT3 antibody is conjugated to HRP
Application:	ELISA

Product Details

Immunogen:	Recombinant Human Leucine-rich repeat transmembrane protein FLRT3 protein (209-264AA)
Isotype:	IgG
Cross-Reactivity:	Human
Purification:	>95%, Protein G purified

Target Details

Target:	FLRT3
Alternative Name:	FLRT3 (FLRT3 Products)
Background:	Background: Functions in cell-cell adhesion, cell migration and axon guidance, exerting an attractive or repulsive role depending on its interaction partners. Plays a role in the spatial

Target Details

organization of brain neurons. Plays a role in vascular development in the retina (By similarity). Plays a role in cell-cell adhesion via its interaction with ADGRL3 and probably also other latrophilins that are expressed at the surface of adjacent cells (PubMed:26235030). Interaction with the intracellular domain of ROBO1 mediates axon attraction towards cells expressing NTN1. Mediates axon growth cone collapse and plays a repulsive role in neuron guidance via its interaction with UNC5B, and possibly also other UNC-5 family members (By similarity). Promotes neurite outgrowth (in vitro) (PubMed:14706654). Mediates cell-cell contacts that promote an increase both in neurite number and in neurite length. Plays a role in the regulation of the density of glutamatergic synapses. Plays a role in fibroblast growth factor-mediated signaling cascades. Required for normal morphogenesis during embryonic development, but not for normal embryonic patterning. Required for normal ventral closure, headfold fusion and definitive endoderm migration during embryonic development. Required for the formation of a normal basement membrane and the maintenance of a normal anterior visceral endoderm during embryonic development (By similarity).

Aliases: fibronectin leucine rich transmembrane protein 3 antibody, Fibronectin-like domain-containing leucine-rich transmembrane protein 3 antibody, FLRT 3 antibody, FLRT3 antibody, FLRT3_HUMAN antibody, KIAA1469 antibody, Leucine-rich repeat transmembrane protein FLRT3 antibody

UniProt: [Q9NZU0](#)

Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: Preservative: 0.03 % Proclin 300
Constituents: 50 % Glycerol, 0.01M PBS, PH 7.4

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: -20 °C,-80 °C

Handling

Storage Comment: Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
