**anti-MAD2L1 antibody (AA 2-205) (FITC)**[Go to Product page](#)

## Overview

|                      |                                            |
|----------------------|--------------------------------------------|
| Quantity:            | 100 µg                                     |
| Target:              | MAD2L1                                     |
| Binding Specificity: | AA 2-205                                   |
| Reactivity:          | Human                                      |
| Host:                | Rabbit                                     |
| Clonality:           | Polyclonal                                 |
| Conjugate:           | This MAD2L1 antibody is conjugated to FITC |
| Application:         | Please inquire                             |

## Product Details

|                   |                                                                                       |
|-------------------|---------------------------------------------------------------------------------------|
| Immunogen:        | Recombinant Human Mitotic spindle assembly checkpoint protein MAD2A protein (2-205AA) |
| Isotype:          | IgG                                                                                   |
| Cross-Reactivity: | Human                                                                                 |
| Purification:     | >95%, Protein G purified                                                              |

## Target Details

|                   |                                                                                                                                                                                  |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | MAD2L1                                                                                                                                                                           |
| Alternative Name: | MAD2L1 ( <a href="#">MAD2L1 Products</a> )                                                                                                                                       |
| Background:       | Background: Component of the spindle-assembly checkpoint that prevents the onset of anaphase until all chromosomes are properly aligned at the metaphase plate. Required for the |

## Target Details

execution of the mitotic checkpoint which monitors the process of kinetochore-spindle attachment and inhibits the activity of the anaphase promoting complex by sequestering CDC20 until all chromosomes are aligned at the metaphase plate.

Aliases: HsMAD2 antibody, MAD 2 antibody, MAD2 like 1 antibody, MAD2 mitotic arrest deficient like 1 antibody, MAD2-like protein 1 antibody, Mad2l1 antibody, MD2L1\_HUMAN antibody, Mitotic arrest deficient 2-like protein 1 antibody, Mitotic spindle assembly checkpoint protein MAD2A antibody, REV7 antibody

UniProt: [Q13257](#)

## Application Details

Restrictions: For Research Use only

## Handling

|                    |                                                                                                                   |
|--------------------|-------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                            |
| Buffer:            | Preservative: 0.03 % Proclin 300<br>Constituents: 50 % Glycerol, 0.01M PBS, PH 7.4                                |
| Preservative:      | ProClin                                                                                                           |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C,-80 °C                                                                                                     |
| Storage Comment:   | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                                                     |
